

SECTION 1: IDENTIFICATION	
Product name:	InjectaMax
ACVM registration no:	A011926
Recommended use:	An injectable supplemental source of zinc, manganese, copper, selenium and vitamin B12 for cattle.
Supplier:	HORIZON AGRESOURCES (NZ) Ltd
Address:	Gloucester Court 250 Gloucester St, Napier 4112, New Zealand
Contact number:	0800 378 6300
Emergency contact number:	0800 734 607 (24 hours)
National Poisons Centre:	0800 764 766 (0800 POISON)
Document version and date:	1.0
	06 May 2022

SECTION 2: HAZARI	DIDENTIFICATION
HSNO Approval	HSR002521
number:	Animal Nutritional and Animal Care Products Group Standard 2020
GHS Classification:	Acute oral toxicity Category 4
	Skin sensitisation Category 1
	Eye irritation Category 2
	Specific target organ toxicity (repeated exposure) Category 2
	Hazardous to the aquatic environment chronic Category 3
	Hazardous to terrestrial vertebrates
Signal word:	Warning
GHS Pictogram:	\wedge
	\checkmark \checkmark
Hazard statement:	H302: Harmful if swallowed.
	H316: Causes mild skin irritation.
	H317: May cause an allergic skin reaction.
	H319: Causes serious eye irritation.
	H373: May cause damage to organs through prolonged or repeated exposure.
	H412: Harmful to aquatic life with long lasting effects.
Prevention statement:	P102: Keep out of reach of children.
	P103: Read label before use.
	P260: Do not breathe mist.
	P264: Wash hands and exposed skin thoroughly after handling.
	P270: Do not eat, drink or smoke when using this product.
	P272: Contaminated work clothing should not be allowed out of the workplace.

InjectaMax

	P273: Avoid release to the environment. P280: Wear protective gloves and eye/face protection.
Response statement:	P101: If medical advice is needed, have product container or label at hand.
	P321: See first aid instruction on this label.
	P314: Get medical advice/attention if you feel unwell.
	P391: Collect spillage.
	P330: Rinse mouth.
	P301 + P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
	P302 + P352: IF ON SKIN: Wash with plenty of water.
	P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
	P333 + P313: If skin irritation or rash occurs: Get medical advice/attention.
	P337 + P313: If eye irritation persists: Get medical advice/attention.
	P362 + P364: Take off contaminated clothing and wash it before reuse.
Disposal statement:	P501: Dispose of contents and containers as specified on the registered label.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Product ingredients	CAS Number	Concentration
Zinc (as disodium zinc EDTA)	104025-21-9	4%
Manganese (as disodium manganese EDTA)	15375-84-5	1%
Copper (as disodium copper EDTA)	14025-15-1	1.5%
Selenium (as sodium selenite)	10102-18-8	0.5%
Cyanocobalamin	68-19-9	0.14%

Remaining ingredients are commercially sensitive and cannot be disclosed in a public document.

SECTION 4: FIRST	AID MEASURES
General information	For advice contact the National Poisons Centre on 0800 POISON (0800 764 766), or a doctor immediately. Observe good work practices and avoid skin and eye contact. Wash hands and exposed skin before meals and after use. Do not eat or drink while using. Launder protective clothing separately from other clothing, and before each re-use. SELF-INJECTION: Medical attention should be sought immediately.
Inhalation:	If inhaled: Remove to fresh air. If breathing is difficult, get medical attention.
Skin contact:	If skin or hair contact occurs: Remove contaminated clothing and flush skin and hair with running water. Get medical attention if irritation develops.
Eye contact:	If splashed in eyes: Wash out immediately with water. Get medical attention if irritation occurs.
Ingestion:	If swallowed: Rinse mouth out. Do NOT induce vomiting. Seek medical attention immediately. Have product container to hand.

Workplace facilities:	No special facilities required.
Notes for medical personnel:	Apply symptomatic therapy (no specific antidote). Note the nature of the product (Acute oral toxicity, Skin and eye irritation).

SECTION 5: FIRE FIGHTING MEASURES		
Fire and explosion hazards:	Non flammable	
Extinguishing media	In case of fire: Water spray or fog / foam / dry chemical powder / carbon dioxide.	
Fire Fighting	Self-contained breathing apparatus. Safety boots, non-flammable overalls, gloves, hat and eye protection.	
Flash point:	No data available	
Auto ignition temperature:	No data available	
Flammability class:	No data available	

SECTION 6: ACCI	DENTAL RELEASE MEASURES
Personal	Wear appropriate protective equipment to prevent skin and eye
precautions:	exposure. Do not breathe mist.
Environmental	Restrict access to contaminated area.
precautions:	Contain the spill and prevent further dispersion.
	Reposition any leaking containers so as to minimise further leakage.
	Retrieve intact containers from the site.
	Place damaged containers into containment devices.
	Absorb spills with inert material, sand, vermiculite or other absorbent material, and place in waste containers.
	Wash the area with water and absorb with further inert material.
	Collect spilled material and place in sealable containers for subsequent disposal.
	Prevent contamination of water courses or sewers.
	Dispose of waste safely. For large quantities seek advice from the manufacturer.
	Avoid release to the environment.
Methods and	If greater than 100L is stored in one location, secondary containment
materials for	and emergency plans to manage any potential spills must be in place.
containment and	In all cases design storage to prevent discharge to storm-water
cleaning up:	drains. (If this occurs contact your regional council immediately).

SECTION 7: HANDLING AND STORAGE	
Handling:	Read label before use. Wear protective gloves, protective clothing and eye/face protection. Do not breathe mist. Do not eat, drink or smoke when using this product. Wash hands and exposed skin thoroughly after handling. Avoid release to the environment.
Certified handler:	Not required
Tracking:	Not required
Storage:	Store below 25°C in original container, tightly closed. Keep out of reach of children.

SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION	
Occupational exposure limits:	Exposure limits have not been established for any of the significant ingredients in this product.
Engineering controls:	Prevent exposure by using personal protective equipment and work practices that prevent skin and eye contact, and prevent release to

	the environment.
Protective material	Impervious gloves.
types:	Eye/face protection (e.g. glasses, goggles or face shield).

SECTION 9: PHYS	ICAL AND CHEMICAL PROPERTIES
Appearance:	Purple solution, free of visible particles
Odour:	No data available
Odour threshhold:	No data available
pH:	5.0 - 8.5
Melting point/freezing point:	No data available
Initial boiling point and boiling range:	No data available
Flash point	No data available
Flammability:	No data available
Upper/lower flammability or explosive limits:	No data available
Vapour pressure:	No data available
Vapour density:	No data available
Relative density:	1.15-1.19 g/cm3
Solubility (ies):	No data available
Partition coefficient: n-octanol/water:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Kinematic viscosity:	No data available
Particle characteristics:	No data available

SECTION 10: STABILITY AND REACTIVITY	
Reactivity:	Stable under normal conditions of use and storage.
Conditions to Avoid:	Avoid high temperatures.
Incompatibilities:	No data available.
Hazardous decomposition products:	Hazardous decomposition products are expected when heated to decomposition temperatures. Use appropriate PPE when fighting fires.

SECTION 11: TOXICOLOGICAL INFORMATION	
Acute toxicity:	Sodium selenite:
	(Oral)
	Acute Tox.1
	H300: Fatal if swallowed.
	Species: Rabbit
	Endpoint: LD50
	Value: 1 mg Se/kg
	(Inhalation)
	Acute Tox.3
	H331: Toxic if inhaled.

Endpoint: LD50 Value: 1 mg Se/kgSkin corrosion/irritation:Disodium copper EDTA: Skin Irrit.2 H315: Causes skin irritation.Serious eye damage/ irritation:Disodium copper EDTA: Sodium selenite: Eye Irrit.2 H319: Causes serious eye irritation.Respiratory or skin sensitisation:Disodium copper EDTA: Sodium selenite: Sub Sodium selenite: Skin Sens.1 H317: May cause an allergic skin reaction.Germ cell mutagenicity:Sodium selenite: Sodium selenite: H341: Suspected of causing genetic defects.Carcinogenicity:No data available No data availableReproductive toxicity- single exposure:Disodium copper EDTA: Stor Single Exp.3 H335: May cause respiratory irritation. Oral RouteSpecific target organ toxicity - repeated exposure:Disodium copper EDTA: Stor Single Exp.3 H335: May cause damage to organs through prolonged or repeated oral exposure.Sodium selenite: stor Rep Exp.1 H372: Causes damage to organs through prolonged or repeated oral exposure.Sodium selenite: stor Rep Exp.1 H372: Causes damage to organs through prolonged or repeated oral exposure.		Species: Rabbit
Skin corrosion/irritation:Disodium copper EDTA: Skin Irrit.2 H315: Causes skin irritation.Serious eye damage/ irritation:Disodium copper EDTA: Sodium selenite: Eye Irrit.2 H319: Causes serious eye irritation.Respiratory or skin sensitisation:Disodium copper EDTA: Sodium selenite: Skin Sens.1 H317: May cause an allergic skin reaction.Germ cell mutagenicity:No data available No data availableReproductive torign toxicity - single exposure:No data available STOT Single Exp.3 H335: May cause respiratory irritation. Oral RouteSpecific target organ toxicity - repeated exposure:Disodium copper EDTA: STOT Single Exp.3 H335: May cause damage to organs through prolonged or repeated oral exposure.Specific target organ toxicity - repeated exposure:Disodium copper EDTA: STOT Rep Exp.2 H337: May cause damage to organs through prolonged or repeated oral exposure.Sodium selenite: strot Rep Exp.1 H372: Causes damage to organs through prolonged or repeated oral exposure.		
corrosion/irritation:Skin Irrit.2 H315: Causes skin irritation.Serious eye damage/ irritation:Disodium copper EDTA: Sodium selenite: Eye Irrit.2 H319: Causes serious eye irritation.Respiratory or skin sensitisation:Disodium copper EDTA: Sodium selenite: Skin Sens.1 H317: May cause an allergic skin reaction.Germ cell mutagenicity:Sodium selenite: Sodium selenite: H341: Suspected of causing genetic defects.Carcinogenicity:No data available No data availableReproductive toxicity - single exposure:Disodium copper EDTA: Sodium selenite: H335: May cause respiratory irritation. SECTION 12: ECOLOGICAL INFORMATION	
Ecotoxicity-	Sodium selenite:
Aquatic:	Aquatic Acute 1
	H400: Very toxic to aquatic life.
	Short term toxicity to fish: SPECIES: Morone saxatilis (Striped bass) Type of exposure:
	Duration: 96 hr
	Endpoint: LC50
	Value: 1.5 mg/L
	Short term toxicity to invertebrates: SPECIES: Daphnia magna
	Type of exposure:
	Duration: 48 hr
	Endpoint: LC50
	Toxicity to freshwater algae and cyanobacteria: SPECIES: Selenastrum
	capricornutum
	Type of exposure:
	Duration: 96 hr
	Endpoint: EC50
	Value: 2.9 mg/l

	Aquatic Chronic 1 H410: Very toxic to aquatic life with long lasting effects. Long term toxicity to fish: SPECIES: Morone saxatilis (Striped bass) Type of exposure: Duration: 96 hr Endpoint: LC50 Value: 1.5 mg/L Toxicity to freshwater algae and cyanobacteria: SPECIES: Selenastrum capricornutum Type of exposure: Duration: 96 hr Endpoint: EC50 Value: 2.9 mg/l
Ecotoxicity- Terrestrial:	No data available
Persistence and degradability:	No data available
The potential to be bioaccumulative:	No data available
Mobility in soil:	No data available
Other adverse effects:	No data available

SECTION 13: DISPOSAL CONSIDERATIONS	
Disposal:	Preferably dispose of the product by its intended use. If this isn't possible, dispose of product and packaging at an approved landfill or other approved hazardous waste disposal facility. Avoid contamination of any water source. Do NOT re-use container for any other purpose.

SECTION 14: TRANSPORT INFORMATION	
UN Number:	Not applicable
UN proper shipping name:	Not applicable
UN dangerous goods class and subsidiary risk:	Not applicable
UN Packaging Group:	Not applicable
Environmental hazards:	Not applicable
Special precautions when transporting the substance:	Not applicable
Transport of Dangerous Goods Pictogram:	Not applicable

SECTION 15: REGULATORY INFORMATION	
HSNO Approval	HSR002521
number:	Animal Nutritional and Animal Care Products Group Standard 2020
ACVM registration	A011926

no:		
IIU.	n/	~ •
	114	

SECTION 16: OTH	ER INFORMATION
Abbreviations:	ACVM: Agricultural Compounds and Veterinary Medicines
	EPA: Environmental Protection Agency (previously known as ERMA)
	CAS Number: Chemical Abstracts Service Registry Number
	GHS: Globally Harmonized System
	HAZCHEM Code: Emergency action code of numbers and letters that
	provide information to emergency services, especially fire fighters
	HSNO: Hazardous Substances and New Organisms (Act and
	Regulations)
	UN Number: United Nations Number
	SDS: Safety Data Sheet
	ARTG: Australian Register of Therapeutic Goods
	Ceiling Exposure Value: The maximum airborne concentration of a
	biological or chemical agent to which a worker may be exposed at any
	time.
	Controls Matrix: List of default controls linking regulation numbers to
	Matrix code (e.g. T1, I16).
	IARC: International Agency for Research on Cancer
	LEL: Lower Explosive Limit
	STEL: Short Term Exposure Limit - The maximum airborne
	concentration of a chemical or biological agent to which a worker may
	be exposed in any 15-minute period, provided the TWA is not
	exceeded
	TWA: Time Weighted Average – generally referred to WES averaged
	over typical work day (usually 8 hours)
	WES: Workplace Exposure Standard - The airborne
	UEL: Upper Explosive Limit
	EC50: Ecotoxic Concentration 50% – concentration in water which is
	fatal to 50% of a test population (e.g. daphnia, fish species)
	LD50: Lethal Dose 50% – dose which is fatal to 50% of a test
	population (usually rats).
	LC50: Lethal Concentration 50% – concentration in air which is fatal
	to 50% of a test population (usually rats)
References:	Unless otherwise stated, toxicity information has been obtained from
