

## InjectaMin

### SECTION 1: IDENTIFICATION

|                                   |   |
|-----------------------------------|---|
| <b>Product name:</b>              | <b>InjectaMin</b>   |
| <b>ACVM registration no:</b>      | <b>A011925</b>  |
| <b>Recommended use:</b>           | <b>An injectable supplemental source of zinc, manganese, copper and selenium for cattle and deer.</b> |
| <b>Supplier:</b>                  | <b>HORIZON AGRESOURCES (NZ) Ltd</b>   |
| <b>Address:</b>                   | <b>Gloucester Court<br/>250 Gloucester St, Napier 4112,<br/>New Zealand</b>                           |
| <b>Contact number:</b>            | <b>0800 378 6300</b>  |
| <b>Emergency contact number:</b>  | <b>0800 734 607 (24 hours)</b>  |
| <b>National Poisons Centre:</b>   | <b>0800 764 766 (0800 POISON)</b>   |
| <b>Document version and date:</b> | <b>1.0<br/>06 May 2022</b>  |

### SECTION 2: HAZARD IDENTIFICATION

|                              |   |
|------------------------------|---|
| <b>HSNO Approval number:</b> | HSR002521<br>Animal Nutritional and Animal Care Products Group Standard 2020  |
| <b>GHS Classification:</b>   | Acute oral toxicity Category 4<br>Skin sensitisation Category 1<br>Eye irritation Category 2<br>Specific target organ toxicity (repeated exposure) Category 2<br>Hazardous to the aquatic environment chronic Category 3<br>Hazardous to terrestrial vertebrates  |
| <b>Signal word:</b>          | Warning   |
| <b>GHS Pictogram:</b>        |     |
| <b>Hazard statement:</b>     | H302: Harmful if swallowed.<br>H316: Causes mild skin irritation.<br>H317: May cause an allergic skin reaction.<br>H319: Causes serious eye irritation.<br>H373: May cause damage to organs through prolonged or repeated exposure.<br>H412: Harmful to aquatic life with long lasting effects.                           |
| <b>Prevention statement:</b> | P102: Keep out of reach of children.<br>P103: Read carefully and follow all instructions.<br>P260: Do not breathe mist.<br>P264: Wash hands and exposed skin thoroughly after handling.<br>P270: Do not eat, drink or smoke when using this product.<br>P272: Contaminated work clothing should not be allowed out of the |

# SAFETY DATA SHEET

## InjectaMin

workplace

P273: Avoid release to the environment.

P280: Wear protective gloves and eye/face protection.

**Response statement:**

P101: If medical advice is needed, have product container or label at hand.

P321: See first aid instruction on this label.

P314: Get medical advice/attention if you feel unwell.

P391: Collect spillage.

P330: Rinse mouth.

P301 + P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P333 + P313: If skin irritation or rash occurs: Get medical advice/attention.

P337 + P313: If eye irritation persists: Get medical advice/attention.

P362 + P364: Take off contaminated clothing and wash it before reuse.

**Disposal statement:**

P501: Dispose of contents and containers as specified on the registered label.

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

| Product ingredients                    | CAS Number  | Concentration |
|--|-------------|---------------|
| Zinc (as disodium zinc EDTA)           | 104025-21-9 | 4%            |
| Manganese (as disodium manganese EDTA) | 15375-84-5  | 1%            |
| Copper (as disodium copper EDTA)       | 14025-15-1  | 1.5%          |
| Selenium (as sodium selenite)          | 10102-18-8  | 0.5%          |

Remaining ingredients are commercially sensitive and cannot be disclosed in a public document.

### SECTION 4: FIRST AID MEASURES

|                            |  |
|----------------------------|--|
| <b>General information</b> | For advice contact the National Poisons Centre on 0800 POISON (0800 764 766), or a doctor immediately.<br>Observe good work practices and avoid skin and eye contact.<br>Wash hands and exposed skin before meals and after use.<br>Do not eat or drink while using.<br>Launder protective clothing separately from other clothing, and before each re-use.<br>SELF-INJECTION: Medical attention should be sought immediately. |
| <b>Inhalation:</b>         | If inhaled: Remove to fresh air. If breathing is difficult, get medical attention.   |
| <b>Skin contact:</b>       | If skin or hair contact occurs: Remove contaminated clothing and flush skin and hair with running water. Get medical attention if irritation develops.   |
| <b>Eye contact:</b>        | If splashed in eyes: Wash out immediately with water. Get medical attention if irritation occurs.  |
| <b>Ingestion:</b>          | If swallowed: Rinse mouth out. Do NOT induce vomiting. Seek medical attention immediately. Have product container to hand.   |

## InjectaMin

|                                     |   |
|-------------------------------------|---|
| <b>Workplace facilities:</b>        | No special facilities required.   |
| <b>Notes for medical personnel:</b> | Apply symptomatic therapy (no specific antidote).<br>Note the nature of the product (Acute oral toxicity, Skin and eye irritation). |

### SECTION 5: FIRE FIGHTING MEASURES

|                                    |   |
|------------------------------------|---|
| <b>Fire and explosion hazards:</b> | Non flammable   |
| <b>Extinguishing media</b>         | In case of fire: Water spray or fog / foam / dry chemical powder / carbon dioxide.                        |
| <b>Fire Fighting</b>               | Self-contained breathing apparatus. Safety boots, non-flammable overalls, gloves, hat and eye protection. |
| <b>Flash point:</b>                | No data available   |
| <b>Auto ignition temperature:</b>  | No data available   |
| <b>Flammability class:</b>         | No data available   |

### SECTION 6: ACCIDENTAL RELEASE MEASURES

|   |   |
|---|---|
| <b>Personal precautions:</b>                                  | Wear appropriate protective equipment to prevent skin and eye exposure. Do not breathe mist.  |
| <b>Environmental precautions:</b>                             | Restrict access to contaminated area.<br>Contain the spill and prevent further dispersion.<br>Reposition any leaking containers so as to minimise further leakage.<br>Retrieve intact containers from the site.<br>Place damaged containers into containment devices.<br>Absorb spills with inert material, sand, vermiculite or other absorbent material, and place in waste containers.<br>Wash the area with water and absorb with further inert material.<br>Collect spilled material and place in sealable containers for subsequent disposal.<br>Prevent contamination of water courses or sewers.<br>Dispose of waste safely. For large quantities seek advice from the manufacturer.<br>Avoid release to the environment. |
| <b>Methods and materials for containment and cleaning up:</b> | If greater than 100L is stored in one location, secondary containment and emergency plans to manage any potential spills must be in place.<br>In all cases design storage to prevent discharge to storm-water drains. (If this occurs contact your regional council immediately).   |

### SECTION 7: HANDLING AND STORAGE

|                           |  |
|---------------------------|--|
| <b>Handling:</b>          | Read label before use.<br>Wear protective gloves, protective clothing and eye/face protection.<br>Do not breathe mist.<br>Do not eat, drink or smoke when using this product.<br>Wash hands and exposed skin thoroughly after handling.<br>Avoid release to the environment. |
| <b>Certified handler:</b> | Not required   |
| <b>Tracking:</b>          | Not required   |
| <b>Storage:</b>           | Store below 25°C in original container, tightly closed.<br>Keep out of reach of children.  |

### SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION

|                                      |   |
|--------------------------------------|---|
| <b>Occupational exposure limits:</b> | Exposure limits have not been established for any of the significant ingredients in this product.   |
| <b>Engineering controls:</b>         | Prevent exposure by using personal protective equipment and work practices that prevent skin and eye contact, and prevent release to the environment. |

## InjectaMin

|                                   |   |
|-----------------------------------|---|
| <b>Protective material types:</b> | Impervious gloves.<br>Eye/face protection (e.g. glasses, goggles or face shield). |
|-----------------------------------|---|

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

|  |                           |
|--|---------------------------|
| <b>Appearance:</b>                                   | A clear blue liquid       |
| <b>Odour:</b>  | Faint, musty              |
| <b>Odour threshold:</b>                              | No data available         |
| <b>pH:</b>   | 6.5 – 8.0                 |
| <b>Melting point/freezing point:</b>                 | No data available         |
| <b>Initial boiling point and boiling range:</b>      | No data available         |
| <b>Flash point</b>                                   | No data available         |
| <b>Flammability:</b>                                 | No data available         |
| <b>Upper/lower flammability or explosive limits:</b> | No data available         |
| <b>Vapour pressure:</b>                              | No data available         |
| <b>Vapour density:</b>                               | No data available         |
| <b>Relative density:</b>                             | 1.3                       |
| <b>Solubility (ies):</b>                             | Water solubility: Soluble |
| <b>Partition coefficient: n-octanol/water:</b>       | No data available         |
| <b>Auto-ignition temperature:</b>                    | No data available         |
| <b>Decomposition temperature:</b>                    | No data available         |
| <b>Kinematic viscosity:</b>                          | No data available         |
| <b>Particle characteristics:</b>                     | No data available         |

### SECTION 10: STABILITY AND REACTIVITY

|  |   |
|--|---|
| <b>Reactivity:</b>                       | Stable under normal conditions of use and storage.  |
| <b>Conditions to Avoid:</b>              | Avoid high temperatures.  |
| <b>Incompatibilities:</b>                | No data available.  |
| <b>Hazardous decomposition products:</b> | Hazardous decomposition products are expected when heated to decomposition temperatures. Use appropriate PPE when fighting fires. |

### SECTION 11: TOXICOLOGICAL INFORMATION

|                        |   |
|------------------------|---|
| <b>Acute toxicity:</b> | <b>Sodium selenite:</b><br>(Oral)<br>Acute Tox.1<br>H300: Fatal if swallowed.<br>Species: Rabbit<br>Endpoint: LD50<br>Value: 1 mg Se/kg<br>(Inhalation)<br>Acute Tox.3<br>H331: Toxic if inhaled.<br>Species: Rabbit<br>Endpoint: LD50<br>Value: 1 mg Se/kg |
|------------------------|---|

## InjectaMin

|  |  |
|--|--|
| <b>Skin corrosion/irritation:</b>                          | <b>Disodium copper EDTA:</b><br>Skin Irrit.2<br>H315: Causes skin irritation.  |
| <b>Serious eye damage/ irritation:</b>                     | <b>Disodium copper EDTA:</b><br><b>Sodium selenite:</b><br>Eye Irrit.2<br>H319: Causes serious eye irritation.   |
| <b>Respiratory or skin sensitisation:</b>                  | <b>Disodium Copper EDTA:</b><br><b>Sodium selenite:</b><br>Skin Sens.1<br>H317: May cause an allergic skin reaction.   |
| <b>Germ cell mutagenicity:</b>                             | <b>Sodium selenite:</b><br>H341: Suspected of causing genetic defects.   |
| <b>Carcinogenicity:</b>                                    | No data available  |
| <b>Reproductive toxicity:</b>                              | No data available  |
| <b>Specific target organ toxicity – single exposure:</b>   | <b>Disodium copper EDTA:</b><br>STOT Single Exp.3<br>H335: May cause respiratory irritation.<br>Oral Route   |
| <b>Specific target organ toxicity – repeated exposure:</b> | <b>Disodium copper EDTA:</b><br>STOT Rep Exp.2<br>H373: May cause damage to organs through prolonged or repeated oral exposure.<br><br><b>Sodium selenite:</b><br>STOT Rep Exp.1<br>H372: Causes damage to organs through prolonged or repeated oral exposure.<br>Primary Organ Effected: Hepatotoxicity (liver) |
| <b>Aspiration hazard:</b>                                  | No data available  |

### SECTION 12: ECOLOGICAL INFORMATION

|                              |  |
|------------------------------|--|
| <b>Ecotoxicity- Aquatic:</b> | <p><b>Sodium selenite:</b><br/>Aquatic Acute 1<br/>H400: Very toxic to aquatic life.<br/>Short term toxicity to fish: SPECIES: Morone saxatilis (Striped bass)<br/>Type of exposure:<br/>Duration: 96 hr<br/>Endpoint: LC50<br/>Value: 1.5 mg/L</p> <p>Short term toxicity to invertebrates: SPECIES: Daphnia magna<br/>Type of exposure:<br/>Duration: 48 hr<br/>Endpoint: LC50</p> <p>Toxicity to freshwater algae and cyanobacteria: SPECIES: Selenastrum capricornutum<br/>Type of exposure:<br/>Duration: 96 hr<br/>Endpoint: EC50<br/>Value: 2.9 mg/l</p> <p>Aquatic Chronic 1</p> |
|------------------------------|--|

## InjectaMin

|   |  |
|---|--|
|   | <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>Long term toxicity to fish: SPECIES: Morone saxatilis (Striped bass)<br/>Type of exposure:<br/>Duration: 96 hr<br/>Endpoint: LC50<br/>Value: 1.5 mg/L</p> <p>Toxicity to freshwater algae and cyanobacteria: SPECIES: Selenastrum capricornutum<br/>Type of exposure:<br/>Duration: 96 hr<br/>Endpoint: EC50<br/>Value: 2.9 mg/l</p> |
| <b>Ecotoxicity-<br/>Terrestrial:</b>            | No data available  |
| <b>Persistence and<br/>degradability:</b>       | No data available  |
| <b>The potential to be<br/>bioaccumulative:</b> | No data available  |
| <b>Mobility in soil:</b>                        | No data available  |
| <b>Other adverse<br/>effects:</b>               | No data available  |

### SECTION 13: DISPOSAL CONSIDERATIONS

|                  |   |
|------------------|---|
| <b>Disposal:</b> | <p>Preferably dispose of the product by its intended use.<br/>If this isn't possible, dispose of product and packaging at an approved landfill or other approved hazardous waste disposal facility.<br/>Avoid contamination of any water source.<br/>Preferably recycle empty container using a suitable drench container recovery program (e.g. AgRecovery: for details visit the site <a href="http://www.agrecovery.co.nz/programmes/container-recycling">http://www.agrecovery.co.nz/programmes/container-recycling</a>)<br/>Do NOT re-use container for any other purpose.</p> |
|------------------|---|

### SECTION 14: TRANSPORT INFORMATION

|   |                |
|---|----------------|
| <b>UN Number:</b>   | Not applicable |
| <b>UN proper shipping<br/>name:</b>                                 | Not applicable |
| <b>UN dangerous goods<br/>class and subsidiary<br/>risk:</b>        | Not applicable |
| <b>UN Packaging<br/>Group:</b>                                      | Not applicable |
| <b>Environmental<br/>hazards:</b>                                   | Not applicable |
| <b>Special precautions<br/>when transporting<br/>the substance:</b> | Not applicable |
| <b>Transport of<br/>Dangerous<br/>Goods Pictogram:</b>              | Not applicable |

### SECTION 15: REGULATORY INFORMATION

|                                  |  |
|----------------------------------|--|
| <b>HSNO Approval<br/>number:</b> | <p>HSR002521<br/>Animal Nutritional and Animal Care Products Group Standard 2020</p> |
|----------------------------------|--|

## InjectaMin

|                              |         |
|------------------------------|---------|
| <b>ACVM registration no:</b> | A011925 |
|------------------------------|---------|

### SECTION 16: OTHER INFORMATION

|                       |   |
|-----------------------|---|
| <b>Abbreviations:</b> | <p>ACVM: Agricultural Compounds and Veterinary Medicines<br/> EPA: Environmental Protection Agency (previously known as ERMA)<br/> CAS Number: Chemical Abstracts Service Registry Number<br/> GHS: Globally Harmonized System<br/> HAZCHEM Code: Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters<br/> HSNO: Hazardous Substances and New Organisms (Act and Regulations)<br/> UN Number: United Nations Number<br/> SDS: Safety Data Sheet<br/> ARTG: Australian Register of Therapeutic Goods<br/> Ceiling Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time.<br/> Controls Matrix: List of default controls linking regulation numbers to Matrix code (e.g. T1, I16).<br/> IARC: International Agency for Research on Cancer<br/> LEL: Lower Explosive Limit<br/> STEL: Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15-minute period, provided the TWA is not exceeded<br/> TWA: Time Weighted Average – generally referred to WES averaged over typical work day (usually 8 hours)<br/> WES: Workplace Exposure Standard - The airborne<br/> UEL: Upper Explosive Limit<br/> EC50: Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)<br/> LD50: Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).<br/> LC50: Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population (usually rats)</p> |
